

# ***fast fence.ca*** **Welded Wire Panels**

## **FEATURES**

- **STANDARD SIZE**  
Panels are available in 10' long x 6' high sections.
- **STURDY AND SECURE**  
Sections are self-supported on steel ground stands and constructed of heavy-duty wire mesh on a sturdy galvanized steel frame.
- **FUNCTIONAL**  
The sturdy anti-climb design helps to ensure the safety and security of your site.

## **SAFETY AND SECURITY FOR A VARIETY OF APPLICATIONS.**

Sturdy welded wire panels are an effective and secure barrier which prevent access to your site. The welded rectangular mesh design makes climbing extremely difficult, while keeping the site visible – an effective deterrent to would-be thieves. The use of sturdy steel ground stands and u-clamps easily accommodates changes in the surface or direction of the fence line. Privacy screening is also available for purchase.

Fast Fence Inc. offers a wide range of fence products to help secure your project. Competitive prices and fast, professional delivery, installation and removal.
